RUBBER TIPS / COLLETS (PUT)

Our RUBBER TIPS or collets are specially designed for various Die Attach (DA) applications such as stacked dies, very thin, very slim & long or large die sizes.

At MICRON Advance Technology, all our parts are designed and produced in-house, locally. Tooling are fabricated, and parts are molded with our own proprietary processes & materials.

Enabling a "Quick & Easy" fitting & setup. Providing Optimum Vacuum Suction Retention & Release during "Pick and Place" processes, for various components and applications .

"your solution to precision vacuum PICK-UP (PUT) technology"
